VR Roller-Coaster Ride Through a Mixed Reality Multiverse of
a queer-futurist post-apocalyptic version of Miami

[Miami, FL] Locust Projects presents *Niñalandia Skycoaster* a multimedia experience by Miami-based artists LIZN'BOW opening in the Project Room on Saturday, September 7, 2024 | 6-8pm and a performance by the artists at 8pm.

The artists invite visitors to step into an immersive multimedia experience and embark on a VR rollercoaster ride based on the artists' *Niñalandia Mixed Reality Multiverse*, a queer-futurist post-apocalyptic version of Miami which brings together ideas from their nearly decade long collaboration.

Liz and Bow's personal car, a 2006 Buick Rendezvous custom-wrapped in a hyper-maximalist digital collage becomes the participants roller coaster cart. Once inside they are transported into a virtual theme park experience. The immersive gallery installation also features projected animations and a sound score, creating an environment where physical and digital realms unite.

Visitors zoom past iconic elements from Niñalandia, such as a jet-ski unicorn cow, a mountain of burning money, and giant leche jugs, all submerged halfway underwater and set against neon rainbows in undulating pink and purple skies. By presenting queer-coded imagery through nostalgic digital aesthetics reminiscent of early-internet games like RollerCoaster Tycoon and Mario Kart, *Niñalanida Skycoaster* encourages expansive approaches to familiar forms of entertainment, promoting a more inclusive worldview.

With the support of Locust Projects, *Niñalanida Skycoaster* aligns with contemporary trends in art and technology that prioritize interactivity and accessibility. This project is not just a display but a platform for discourse, challenging traditional exhibition norms and inviting conversation within the vibrant context of Miami-inspired iconography.

Niñalandia Skycoaster was a "Curator's Pick" selected by Executive Director Lorie Mertes from the artists' applications to open calls in 2023 and 2024 for both Project Room.

ABOUT LOCUST PROJECTS

Founded by artists for artists in 1998, Locust Projects is Miami's longest running nonprofit alternative art space. We produce, present, and nurture ambitious and experimental new art and the exchange of ideas through commissioned exhibitions and projects, artist residencies, summer art intensives for teens, and public programs on contemporary art and curatorial practice. As a leading incubator of new art and ideas, Locust Projects emphasizes boundary-pushing creative endeavors, risk-taking and experimentation by local, national, and international artists. We invest in South Florida's arts community by providing artists with project grants and empower creative careers by supporting the administrative work of being an artist through an onsite artist resource hub and access to pro bono legal services.

Locust Projects 2023-2024 exhibitions and programming are made possible with support from: The John S. and James L.
